INFORMATION & REPORTS

A. Update: School Re-Entry Plan

Mr. Owen shared that Kelloggsville Public Schools will be offering parents two (2) options to start the 2020-21 school year; regular in-school instruction and an online option. For students attending school, the district will be using the safety protocols recommended in the Governor’s Return to School Roadmap. Students in grades K-2 that selection the option of online instruction will receive instruction through the Accelerated Education platform. Students in grades 3-12 that select the online option will receive instruction through Odysseyware, which the district has used for several years for credit recovery. Kelloggsville teachers will work with all of our online students. Parents have been directed to our website to take a short survey, which includes their preference to officially select the online instruction option to start the 2020-21 school year. The school year re-entry plan has been a very detailed process with stakeholders from all programs and labor groups participating in the process.
