

# SENIOR NEWS 2024

## March 2024

From the Principal: All seniors are required to have 22 credits and meet the Michigan Merit Curriculum Requirements in order to graduate. A student may take up to 1 credit during summer school if they are shy of the 22-credit requirement. In order to walk at graduation, seniors must have registered and paid for summer school by May 9th. Please contact the counseling office if you have any questions regarding your status. Summer School begins June 3.

All Graduation Activities (including the ceremony) are privileges afforded to seniors. If a student is in violation of district policies and expectations, they may be denied the privilege of participating in those activities.

The last day full day of class is May 8th. Kelloggsville Public Schools does not permit nor condone senior skip day (s), or any form of senior prank. Students who participate in these types of activities may be denied participation in any or all end-of-year senior activities. We ask that parents please help us make sure students are making good decisions.
